

## Directors Report

### February

- Softball- ordering additional balls, registration is now open, flyers went to the school, lawn signs have been posted.
  - NEED A LIASON
  - January Softball Meeting- Basic information was discussed- Need team counts February 26<sup>th</sup>, type of balls for each level, etc.
  - Prices per team- Pony level- \$50, Junior level- \$100, Intermediate & Senior levels- \$300
  - Start date- Saturday, April 22<sup>nd</sup>
- Street Hockey- Started January 24<sup>th</sup>, Ordered shirts January 30<sup>th</sup>, Games will start February 2<sup>nd</sup>,
  - Don't have permanent coaches for the older kids
- Flag Football- There is no local groups for a flag football league for adults. Realistically it would not be difficult to run. Promoting and determining whether there is enough interest around the area would be the biggest challenge.
  - Begin games late spring into early summer
  - Hold games on Sunday afternoons at Vera field
  - Costs- Football, flags, field maintenance, shirts, Ref.
  - Teams- registration fee?, (at least enough to cover expenses)
  - Make players sign liability waver
- Railroad Territory- Large piece of land unused with a run down barn on it.
  - Possibilities- Create a senior center/ basketball court in the building. Create a track on the surrounding territory. Step-by-step this could be turned into another recreation facility and park.
  - A lot of work needs to be done, but with Matt's help (borough manager) work can be initiated.
- Installed a chain across the pavilion driveway entrance. I put 2, 2 foot PVC piping on it with reflection tape, and have a key to disconnect it when someone rents the pavilion.
  - My reasoning for locking this is because the kids skateboarding in the pavilion tearing up the tables, are typically the people who drive up to the pavilion and blast their inappropriate music from their vehicles.
- Speed bump in Boro park- The parking lot is a huge liability with car speeding through. Let's not wait for an accident to occur in order to put in speed bumps. Specifically during

the pool season, we have kids run across the road eager to get to the pool, and the dumpster and shed are both blind spots for drivers.

- We would need a temporary speed bump so we can remove it during the winter for DPW to plow snow.
  - \$151.85 a piece. They are 6 feet wide therefore, we will need 2.
- Sponsorship- We have an enormous amount of fencing around the softball field, pool, and basketball court. We can utilize this fence by selling advertisements to local business's.
- Electrical Ground Bonding- Up this year
  - Dorsch- \$1,260
